

Solar Control

- 1. Pool
- 2. Collector Sensor
- 3. Motorised Valve
- 4. Pump
- 5. Pool Sensor

Wiring Connection

2	→	6 Red	
3	→	9 White	
4	→	5 Green	

Installing the 1.5 inch Tee in this position will enable water to take the path of least resistance when the valve is in an open position.

Drill 6.5mm hole.

Apply ABS/PVC glue to water sensor and insert into hole.

IMPORTANT - use correct glue type
