## JUSTSALT<sup>®</sup>+

- Treatment by saltwater chlorination
- Simple & Effective
- Your best buy!!!

The natural care for clear water

# JUSTSALT®+

## Saltwater chlorination

What about pH regulation?  
Your ideal complement;  
JUST PH® !!!

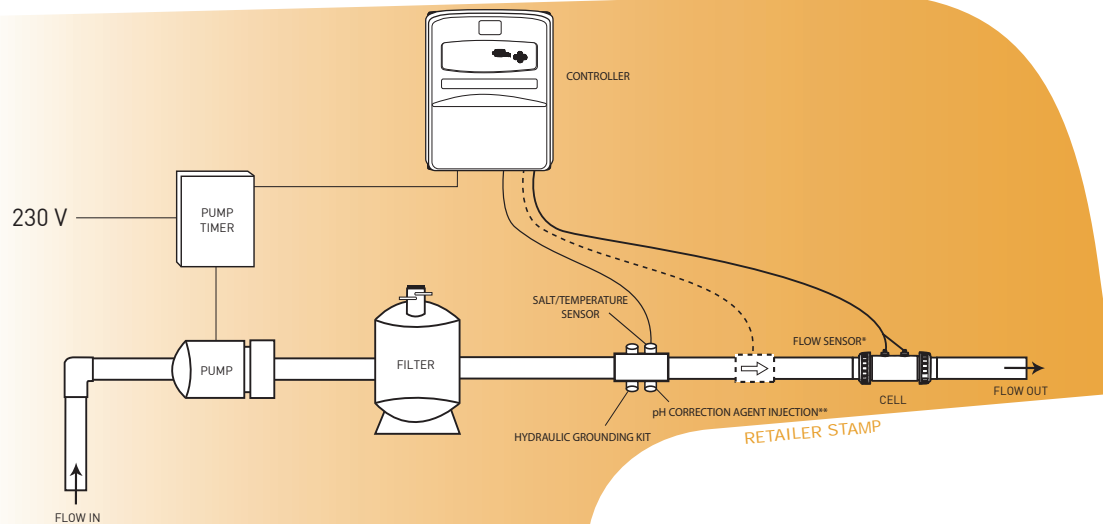

Designed for swimming pools up to 150 m<sup>3</sup> **JUSTSALT®+** produces a powerful and efficient disinfectant by saltwater chlorination. Your pool is free of chemical disinfectant all season long. With **JUSTSALT®+** the maintenance of a healthy pool is no longer a hassle.

From a lightly salted water as 5 kg/m<sup>3</sup> (1/7<sup>th</sup> as much as ocean water), **JUSTSALT®+** manages on its own the disinfection of your swimming pool.

**JUSTSALT®+** is easy to use and install; a digital pad allows you to adjust the disinfectant production according to the water volume and frequency of use of your pool.

**JUSTSALT®+** guarantees an efficient disinfection and great swimming comfort.

- **2 models** for pools up to 100 and 150 m<sup>3</sup> in temperate climates, 80 and 120 m<sup>3</sup> in hot climates
- **Equipment ready to use:** comes with its chlorination cell, accessories holder and analysis kit
- **Adjustable production** by digital pad from 0 to 99%
- **Self Cleaning Cell** by progressive polarity inversion
- **Adjustable polarity inversion** from 0 to 24 hours according to water hardness
- **Permanent digital display** of production percentage
- **2 Lights:** green indicates correct operation/ red indicates a malfunction
- **Alarms:** water shortage / no flow / low salt level / low temperature/scaled or deteriorated cell
- **BOOST mode** for 24 hour super chlorination
